

Hike Bender Mountain

June 21, 2008 at 10 am

Hike hosted by Western Wildlife Corridor

This is a somewhat strenuous hike because of the long hike uphill and uneven ground. We will hop rocks to cross Rapid Run Creek and hike through natural forest. At the top is a spectacular view of the Ohio River and Kentucky. See the progress made by volunteers in removing invasive Garlic Mustard this past spring so that native plants can thrive. Even on a hot day, the air in the woods will be cool and refreshing and there is usually a slight breeze coming up from the Ohio River. Free. All ages.

Call hike leader Bruce for info 513 451-5549. Also www.westernwildlifecorridor.org or 513 921-WILD

Meet at the first gravel pulloff on Bender Rd about 1/4 mile from River Rd.
